# IRIS KAEMPFERI - - - -

## THE MODERN GARDEN ORCHID

Tall and stately, gorgeously colored, and flowering for a month, they sell themselves to any gardener. Once started with Iris Kaempferi, your customer is a prime prospect for all of the varieties to complete a garden collection. Planters use them for spotting in garden plantings, and for naturalization, the cool green foliage is nature at its best. Quality is always first, of course, and this list is a premium selection. Why not set your Iris out now so that you will have them right at hand next spring and summer?

PLANT FROM AUGUST 15 ON.
